

Delta Dental is Mobile

Delta Dental wants to make it easy for you to get the most out of your dental benefits. Our free mobile app is available to Apple iOS and Android users.

Find a Dentist. You're on vacation, need care and aren't sure if there's an in-network dentist near you. Or perhaps you're in the market for a new dentist. Open the Delta Dental app and easily search.

Check your claim status. You recently had some dental work and want to know if your claim was paid. Just login to the app and view your claim status.

View coverage details. Unfortunately, it looks like you need a filling. You want to see what percentage is covered to estimate your out-of-pocket expense. Login to the app and quickly find out.

Display your ID card. You're at the dentist and realize you've misplaced your ID card. No problem! Login to your app and e-mail your ID card to your dentist or show the office staff your digital ID card from your phone.

Download and Get On

Delta Dental's free mobile app is available for Apple iOS and Android users. Simply visit the App Store (Apple) or Google Play (Android) and search for Delta Dental to download and install.

Anytime,
anywhere,
service is IN

Everyone has access to our Find a Dentist and Toothbrush Timer tools. Subscribers have access to secure information for themselves and any dependents. The app uses the same information you use to access the MySmile Personal Benefits Portal, so you won't need to remember separate passwords. If you're not already registered, you can set up your account from the app's login page.

*Please note: You have to enter your login information each time you access the secure portion of the app.
No personal health information is ever stored on your device.*

You're already IN, so why not get on the Delta Dental mobile app? Download it today.
